Test the get_people_also_ask_links method

```
import unittest
from google_search import get_people_also_ask_links
```

```
class TestGoogleSearch(unittest.TestCase):

    def setUp(self) -> None:
        pass

    def test_get_people_also_ask_links(self):

        test = "principal components"
        result = get_people_also_ask_links(test)
        self.assertEqual(list, type(result))
```
